comments on GGPSSO*

Range of services

1. Small SBU's, deviation unbundled services
2. Interruptible, no infringement firm rights
3. Pooling

Timetable for implementation

1. Implementation a.s.a.p. by SSO's and regulatory authorities of this voluntary agreement.
2. Users must be properly consulted by SSO and regulatory authorities

Other

1. Publication or transparency of info
(cost, confidentiality, installation time)
2. Commercial risk for storage operators
(different for rTPA, nTPA; investment climate)
3. Security of supply (PSO's?)

Missing

1. Defining capacity properly (maximum technical, available and unused capacity under art. 9(1) and art.19 due to PSOs, TSOs etc.)
2. Penalties (premature)
3. Chinese walls (see our text)
