JOINT DECLARATION

Eurogas, the European Union of the natural gas industry and Eurogif, the European oil and gas innovation forum jointly agree that natural gas is essential to energy security of supply and contributes to the success of the energy mix de-carbonisation strategy of the EU. As the most environmentally friendly fossil fuel, natural gas can make a major contribution to a sustainable energy market and by helping to reach Kyoto targets, gas can make a significant contribution to EU's Green Agenda.

Jean Marie-Devos
Secretary General Eurogas

Romain Poly
Secretary General Eurogif
